

Dear Community Council/Community Group,

Hopefully you will be aware that there are a number of stakeholder workshops currently underway as part of the ongoing engagement to help shape an investment plan for Skye & Raasay. To ensure wide participation an online survey has also been created at www.highland.gov.uk/skyeraasay to help make it inclusive for people to get involved. These steps are designed to engage with the wider community and allow people to input their ideas and feedback.

The survey is open until the end of June.

Please share this link widely in your community and share it on any social media that your group is connected with.

Kind Regards

Willie MacKinnon
