

Announcement

The Board of Directors are pleased to announce that our joint bid with Communities Housing Trust to the Scottish Government's Rural Communities in Action Fund was successful.

We were awarded £47,840.40.

This funding is being used to pay for the Architect's drawings, planning submissions and consultations into the viability of refurbishing the school and house to create affordable housing.

The funding must be spent by March 31st so the work is well underway.
